## About:

Meet **Harsh Savale**, a design lover from Mumbai. I'm 18 years old and super excited about making things look awesome.

I enjoy taking tricky ideas and turning them into cool designs. Whether it's on a computer screen or a piece of paper, I love adding my creative touch to everything I do.

I love trying out different kinds of art, taking pictures, illustrate human characters in comical way or just wandering around the busy city. I'm really good at paying attention to small things and always try my best. I'm eager to try new creative stuff and make a mark in the design world.
